THE 1-PAGE NUTRITION SYSTEM

Most plans drown you in rules. This one runs on **three dials** you can set today and repeat forever. Master these and 90% of nutrition takes care of itself — no tracking spirals, no guesswork.

Built by **Carlos** — Pharmacy Student & Coach. Grounded in how your body actually absorbs and uses fuel, not gym-floor myth.

REPEATABLE

THE FUEL FORMULA

THREE DIALS. THAT'S IT.

01 PROTEIN

The anchor of every meal.

- Aim for **~0.7–1g per lb** of bodyweight, spread across the day.
- **Eat it first.** Protein blunts hunger and protects muscle while you train.
- A palm-sized portion at **each** meal hits the target without math.

02 PLATE

Structure beats willpower.

- **Half** the plate: vegetables & fruit (volume + fiber).
- **A quarter:** protein. **A quarter:** smart carbs — rice, oats, potato.
- Add **a thumb of fats** — oil, nuts, avocado. Same plate, win on autopilot.

03 PATTERN

Consistency is the multiplier.

- Run **3–4 meals you actually like** on repeat. Boring is what works.
- Drink **water before you snack** — most cravings are thirst in disguise.
- Live at **80/20**: dialed all week, flexible without guilt on the edges.

DO THIS TOMORROW

START SMALL · WIN TODAY

1. Anchor breakfast

Hit 30g+ protein before noon.

2. Build one plate

Use the half / quarter / quarter rule once.

3. Fill a bottle

Finish it before your first snack.
